

Accessibility solutions made simple.
Call us today at 978-443-0798

Assess

Evaluate accessibility needs, determine priorities, and chart a path to your goals.

Remediate

Implement necessary changes and guide you through the process of achieving accessibility.

Integrate

Incorporate accessibility into your organization to maintain on-going compliance.

Core Competencies:

We help you achieve Section 508 compliance.

- 1. Accessibility Testing.** Assess the product to identify accessibility issues and ensure that it complies with Section 508.
- 2. Program Management Support.** Strategic consulting to help manage accessibility programs.
- 3. VPAT Verification.** Third-party evaluation of products to verify compliance of content and systems.
- 4. Help Desk Support.** Answers to Section 508, accessibility development, and assistive technology questions.
- 5. Accessibility Training.** Attend an online webinar or a customized on-site training on web or mobile accessibility, Section 508, PDF, or accessibility testing.
- 6. Website Development.** Design and construct websites that meet the Section 508. Integrate accessibility into CMS workflows.
- 7. On-Going Compliance Monitoring.** Audit changes and monitor evolving standards to maintain compliance.
- 8. PDF Remediation.** Resolve compliance and usability challenges with our expertise in your PDF documents.
